Professional experience

LodgeLink - Calgary, AB, CanadaApril, 2024 - Present

UI/UX Designer

- Leading end-to-end UX design from discovery through delivery for enterprise web applications, collaborating closely with Product Managers and Engineering teams
- Designed and maintaining a scalable design system used by 3 cross-functional teams, including components, tokens, and documentation to ensure consistency and efficiency
- Creating user flows and interaction models to support complex user journeys and business workflows
- Producing wireframes and high-fidelity prototypes in Figma to clearly communicate behavior, intent, and edge cases
- Conducting UX research, usability testing, and customer interviews to identify user needs, pain points, and opportunities for improvement
- Using research insights and behavioral data to iterate on designs and inform product decisions
- Partnering with engineers on design handoff, implementation support, and design QA to ensure high-quality execution
- Applying UX prompt patterns such as feedback states, system transparency and actively exploring AI tools and emerging technologies to improve design workflows and design impact

Medicover - Warsaw, PolandAugust, 2022 - March, 2024

UI/UX Designer

- Designed end-to-end UX solutions for complex healthcare web and mobile applications, improving usability, clarity, and accessibility
- Contributed to the development and evolution of scalable design systems to ensure consistency across products
- Created clear user flows, journey maps, wireframes, and high-fidelity prototypes for data-heavy and regulated environments
- Collaborated cross-functionally with Product Managers, Engineers, and stakeholders to align user needs with business goals
- Ensured designs followed accessibility best practices and inclusive design principles

University of Economics and Human Sciencesin Warsaw - Warsaw, PolandApril, 2021 - April, 2022

UI/ Graphic Designer

- Designed wireframes, prototypes, and high-fidelity mockups to support digital products and marketing platforms
- Created clear visual communication materials (UI layouts, presentations, infographics) to support user understanding
- Collaborated with designers, developers, and stakeholders to deliver user-centered solutions aligned with business goals
